

Former Coleman Boy Killed at Vancouver

Fred A. Cox Found on Pier With Head Crushed—Foul Play Suspected

Vancouver, B.C., May 3—Possibility that Fred A. Cox, former Edmonton football star, who was found dead on D Pier on Monday met his death through foul play, is being investigated by the police. Cox's lifeless body was found on the lower level of pier D, with the side of his head crushed in, where he had apparently struck a piece of machinery in falling from the upper level. The discovery was made shortly before seven a.m., but the man had apparently been dead for some hours. Identification was made through papers in his pocket, and the remains were removed to the city morgue. So far no witnesses of the accident have been found. C. P. R. employees who found the body expressed the belief that the man must have been pushed or thrown over the rail which guarded the 30 foot drop from the shore end of the pier to the dock below.

The above news item carried in the daily press on Tuesday refers to a former resident of Coleman, who resided here as a boy with his family for many years. The young man who so tragically lost his life at the Coast, was 28 years of age and came to Coleman with his parents in 1911 and attended school here. At the outbreak of the war he went to Calgary to enlist and saw service at the front. After the war he returned to Coleman and was employed in the International Coal Company's mine here. About six years ago the family removed to Edmonton where they resided until recently, when they moved to Vancouver.

Two uncles, Messrs. J. C. Cox and F. A. Cox, are well known Coleman residents, and they were notified by wire on Monday of the tragic death of their nephew.

Mines All Busy Getting Out Coal in The Pass

With both local mines working steadily, and similar conditions prevailing at Blairmore, Bellevue and Hillebrand, many thousands of tons of steam coal are being daily shipped away to the C. P. R. coal dumps in Alberta, Saskatchewan and Manitoba points.

General business in the district is already feeling the beneficial effect of the large pay roll being put into circulation every two weeks as a result of the steady work in the coal camps, and present prospects appear bright for a continuance of this business throughout the summer.

THE MAIL BAG

Bowman, Calgary, Alta.

April 26th, 1927

The Editor,

Coleman Journal.

Dear Sir:—Will you kindly thank all those who assisted in the canvass for funds last week for our Home here. We are very grateful for all the help received from the friends in Coleman, not only at this time, but in the past years, and also for the valuable publicity given us by The Journal. We sincerely hope that some of you at least may be able soon to visit us and see the New Home and our big family for yourselves.

Yours sincerely,
George Wood.

TO MANAGE OLYMPIC TEAM
W. A. Hewitt, of Toronto, who has been appointed manager of the Canadian winter sports team which will compete in the Olympic games next winter. The team will probably comprise figure and speed skating and skiing units as well as the Varsity Grade hockey team.

Mother Love

(Mother's Day, Sun., May 8, 1927)
Like the restful blue of the heavens that canopies a changing sky;
Like the brilliant gold of a sunset lighting the gray corners of earth;
Like the silver peaked crest of mountains soaring into infinite space;
Like the shore of a mighty water succoring its fickle waves;
Like the beauty of a woodland recess giving of its depth and peace;
Like the guardian oak in tempest giving of strength and life—
That is Mother Love!

Come On Out!

A meeting of the Scout Association Executive was held in St. Alban's hall on Tuesday evening, Mr. E. F. Garett in the chair.

The committee appointed to meet the ladies regarding a Whist Drive was reported on by Mr. Howarth to the effect that they would attend to the catering. The date of the whist drive was set for Tuesday, May 17th, at 8 p.m., to be held in St. Alban's hall. Tickets will be sold by the Scouts at 50c each.

A question arose regarding getting a Union Jack for the troops. This flag is to be sent for, the funds being donated by the Executive. Enquiries are to be made regarding the Boy Scouts taking part in the Jubilee Celebrations.

Commissioner Jones reported that a general meeting was being held at Blairmore in the near future for the purpose of organizing a Troop of Boy Scouts there. On May 20th, Mr. Jones will attend the meeting of Dominion Commissioners to be held in Calgary.

The question of Sports League was held over until reported on further by the secretary.

Both Cub Packs are scheduled to go on a hike Saturday morning of this week. The boys are leaving their hall at 10 a.m., and are to take a lunch with them as they expect to be away until about four in the afternoon.

Mr. Harrison, the new manager of the Scott Fruit Co., has arrived in the city to take the place of Mr. Hart, who has been transferred to Lethbridge. The new accountant, J. R. Pipes, accompanied by his family, has also arrived in the city. —Fannie Free Press.

Women's Institute Regular Meeting

The regular meeting of the Women's Institute was held at the home of Mrs. A. E. Graham on April 26. The Baby Clinic will be held at the home of Mrs. J. Price on May 13. This is an opportunity for all those parents with small children to avail themselves for a free medical examination. The children will be divided into two classes, those up to 3 years and those from 3 to 6 inclusive. Valuable prizes will be given to the most perfect child in each class. Come and bring your baby.

The Departmental Basketball Course will be held in the United Church club rooms from May 11th to 19th, which is open to the public. Further information concerning this will appear at an early date.

An interesting review was made of the work done by the institute during the last number of years for the schools. It has consisted of gold medals as merit rewards for Grade VIII pupils, flags, pictures for the school rooms, gymnasium equipment to the value of \$500, school fair money to the value of \$400 and other minor donations.

An exchange of plant slips took place with a discussion on the rearing of plants so that many valuable suggestions were exchanged. Some of the many delicious ways in which biscuit dough can be used was ably demonstrated by Mrs. Graham who mixed and baked these several varieties at the meeting. These proved to be delectable when later eaten by the ladies during lunch which was served by Misses Short, Graham and Lindoe. This brought the evening to a close.

"Facing The Music" Draws Good House

The Coleman Players scored another success when they presented the above three act comedy to almost a capacity house in the Grand theatre on Wednesday evening. The plot in this play bears a striking resemblance to "Mrs. Temple's Telegram," so ably presented by this company of local artists last year, and is replete with a maze of humorous situations caused by the actions of two Mr. Smith's and their wives, who occupy adjacent flats in Mona Mansions, London.

Each member of the cast portrayed his or her part in a very creditable manner, and aside from a few minor faults in diction and portrayal, the presentation was as good as that of many professional companies. The acting of Mr. Sidney Short, a new addition to the local troupe, who took the part of Sgt. Duffal, was exceptionally well done, while Messrs. J. C. Devine, W. T. Watts, D. E. McLean and A. E. Graham, the other male members of the cast, were all at home in their respective parts. Mrs. A. E. Graham, Miss Christie Allan and the Misses Edith and Elsie Hayson, carried through their parts very creditably indeed.

The entire production was carried through in truly professional style, and the Coleman Players can rest assured they will receive good support locally whenever they decide to again appear before the footlights.

This week only, all Boy's Sneakers, (last summers stock) to be cleared at 95 cents. Fred Antrobus, shoe repairer.

The Babekahs are holding a whist drive and dance in the L.O.O.F. hall next Saturday.

Salvation Army Musical Festival, Monday, May 9

The local Salvation Army Corps carries on from year to year a very praiseworthy work in Coleman and in The Pass. They, like other men of the cloth, are the first port of call for the needy, and are at all times to be found administering, both financially and spiritually, to the unfortunate within our midst.

Many of us take it for granted that this is their work and that they are paid to do it. Very few of us realize that the Army is doing a community work for which they receive a very meagre community pay. It is more than probable that at least one half of the funds spent by the Army for charitable purposes in The Pass comes from outside sources, which would indicate that the Army is certainly living up to its purpose in life while the people of Coleman and The Pass are not measuring up to their responsibilities in this regard.

Apparently the Army is faced with this condition in many places, and in order to, in a measure at least, overcome this financial handicap, a yearly Self-Denial Campaign is conducted as a sort of "squearing up" time, when a special appeal is made for funds to carry on the good work. As a feature of this campaign in Coleman this year, Capt. Watt, of the local corps, has arranged to have a "Musical Festival" to be held in the Opera House on Monday evening of next week. Admission to this concert is by program at 50c for adults and 25c for children at the door.

Several of the artists who are taking part on this occasion, recently won medals at the C. N. P. M. F., and it is not overstating it to say that the program to be rendered on this occasion is the best ever given here by Pass talent. Mayor Burns will act as chairman, and the festival commences at 8 p.m. The names of the artists taking part and the numbers to be given will be found on another page of The Journal.

Mothers Day at St. Paul's United Church

Mothers Day, which is becoming more and more widely observed each year, will be recognised in the usual way at the United Church on Sunday next.

The morning service will be a united gathering of the Sunday School children with their teachers and parents. A special order of service will be followed. This will be distributed at the door.

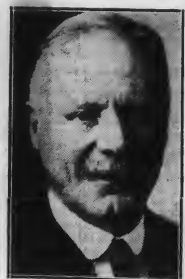

No invitation cards are being used this year. The occasion is of sufficient importance to warrant a good attendance. This should be a "Family Service."

The "Mothers Day" idea will be continued at the evening service. A cordial invitation is extended to all who have no other church home.

Mother

Of all the words of human kind
There is not one that I can find
That can describe the love I bear,
Nor a single word express
My lasting thanks and gratefulness
For all thy ministering care

May Day was not marked by any special ceremonies throughout The Pass. While May 1st fell on Sunday this year, the mines in the district observed the day Monday as a holiday. The unfavorable weather conditions precluded any outdoor sports from being held, and the day passed very quietly throughout the entire district.

LIEUT.-GOVERNOR BRUCE of British Columbia, from a recent photograph.
WILSON—VANDUREN

A pretty wedding was solemnized at the United Church manse on Monday evening, April 25th, the contracting parties being Miss Nellie S. G. Vanduren, of Blairmore, and Mr. Robert Wilson, of Coleman. The bride was attended by Miss Katherine Davidson, of Coleman, while Mr. Henry Vanduren, brother of the bride, supported the groom. The ceremony was performed by Rev. W. T. Young, in the presence of a few immediate relatives and friends.

The young couple will reside at Coleman.—Blairmore Enterprise.

What is a Merchant?

A merchant is a man who operates more than a store; he maintains an instigation.

The merchant is the man who brings for local selection the products of the world; and without the local store in some form you would not be able to conveniently buy the hundred and one things that civilization regards as necessities, nor the coveted things that become the realizations of the more or less well-to-do.

The merchant is the man who carries on credit those who must have time, and those who want time as a matter of their own paying convenience; and in either case the merchant pays you interest on his own money.

The merchant is the man who not only must make service and variety of merchandise his inside rules of success, but who must reach out and find his customers through the recognized avenues of good business practice; he must find you if his business is to reach above the mere transient trade.

The merchant is the man who pays taxes to maintain local government and law and order; who contributes to worthy charities and civic interests, generally without whimper or complaint; you can always find him approachable; and in the process he exists and lets live.

The merchant is the man whom the home newspaper boasts without ceasing, and guards with jealous eyes all encroachments against local prosperity; this without condition of advertising patronage; for the local newspaper conforms as a matter of course to the recognized principles of protection to home industry as the foundation of sectional and even national advancement.

The merchant is the man who must resolve questions of quality, service, price and error against himself; for through hundreds of years of merchandising the public insists upon the proposition that the customer is always right.

The merchant is the man who must meet exalting competition and still bring to himself a fair profit; with which to pay his over-head expenses, support his family, and

Local and General Briefs.

The Journal this week received a copy of the booklet issued at Ottawa, containing general suggestions for the guidance of committees in charge of local celebrations in connection with the Diamond Jubilee of Confederation. If the Coleman committee having this matter in hand have not received a copy of this booklet we would be pleased to pass it on to them.

Mrs. T. B. Smith, 3rd street, who has spent the winter in Ontario and Saskatchewan, returned to Coleman last week.

Mr. D. Morrison, who has been in Calgary for some weeks undergoing treatment from an eye specialist, returned to Coleman on Sunday last. Mr. Morrison has lost the sight of the eye injured while at work in the international machine shop here some time ago, but fortunately the vision of the other optic remains unimpaired.

Born to Mr. and Mrs. M. Milo, 2nd street, Coleman, on Wednesday, April 27th, a son.

The many friends in The Pass of the Rev. and Mrs. Oliver, of Bellevue, will regret to learn that they will soon be leaving Bellevue to make their home at Colpoys Bay, Ontario.

The Women of Mooseheart Legion, Coleman, are holding a Bazaar, Pantry Sale and Tea, in the Opera House on Monday, May 16th, commencing at 3 p.m. A whist drive and dance takes place in the evening commencing at 8 p.m. Six valuable prizes will be awarded to the winners at cards, and refreshments will be served during the evening.

Mrs. W. N. Donaldson and daughter Margaret, left last Thursday morning for Kimberley, where they will join Mr. Donaldson and make their future home. Mrs. Donaldson has made many close friends during her six years residence here, all of whom will wish both her and "Bill" every good thing in the Silver City.

Miss Jean Boyce, who has been the guest of Mrs. D. Roberts for the past two weeks, left on Saturday by auto for her home at Nanton.

Two carloads of 1927 model Pontiacs are expected to arrive in Coleman on Friday of this week and will be on display at the show rooms of the Coleman Garage, Limited, this week-end.

Mr. V. Weidon, representing the Provincial Paper Sales, Limited, of Calgary, was a business visitor to Coleman on Wednesday.

The Misses Phyllis and Irene Foster, nurses in training in the General Hospital, Lethbridge, are spending their vacation with their mother, Mrs. K. Foster, in Coleman.

Sunday, May 8th, is "Mother's Day". In keeping with the day the services at the United Church are being arranged to make the best of the occasion. This notice is both a reminder and an invitation.

carry out his other duties as a good citizen; and to deny him these things is to render him unfit to give the service that you demand."

The merchant is an established institution; he is no "middle-man" in the true sense of the word; for he stands directly at the consuming end, which is closest to the people; he is your friend.

Its fine qualities preserved in the modern Aluminum package.

PEKOE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

One of Canada's Assets

Every citizen is, or should be, interested in all things pertaining to the development and prosperity of Canada, whether he views it from a broad patriotic and national standpoint or the more selfish one of how his individual business and welfare is affected. Anything any citizen can do to advance national interests and progress is, therefore, to be expected of him.

It is generally recognized that it is in the interests of a country to develop its export trade to a point beyond the volume and value of its import trade; in other words, to create what is known as a favorable balance of trade. Export trade is made up of those articles produced or manufactured in Canada and sold in other countries; import trade consists of produce and goods of other countries brought into Canada and sold to its people. That is, Canada must send its money abroad to pay for imports, while on the other hand, foreign money is paid to us for goods we export. In practice, of course, exports really pay for our imports; hence the strength of developing exports in excess of imports.

There is, however, one exception to this general rule. Money itself when imported adds to the wealth of the country much the same as exports of produce and goods adds to it. And it is immediately the form in which such money may come.

Of late years a new industry has developed on the North American continent, although it is an old industry in France, Switzerland, and some other lands. We refer to Tourist traffic, which has long been a source of great income to France and Switzerland. Tourist traffic has, with the advent of the automobile and the building of good roads, become one of the major industries of Canada, and, unlike most imports, the more tourists we can import the richer Canada is made. It follows that everything in reason should be done by Canadians to encourage an increase in such traffic.

Tourists come to Canada for a variety of reasons. They are glad to get away from the excessive heat of the south in summer; with the development of so many large cities in the United States those who can afford to do so are anxious to flee to the woods, to the lakes and river resorts; some come for the purpose of hunting and fishing; some with the idea of investigation of Canada's resources and possibilities and investment therein. All in their travels look for comfort, pleasure and beauty of surroundings.

The mountain scenery and winter sports of Switzerland are about as good as drawing cards. Canada can offer just as fine mountain scenery as Switzerland, and an infinite variety of other natural beauty which the land of the Swiss lacks. Canada's national parks are without exception among the finest in the world.

But to get to the main point of this article, Tourists travel on provincial and country highways, on route hither and thither, desire to follow the most attractive and beautiful roads. Bare, treeless levels do not attract, but winding trails and roads through little valleys and park-like country make a powerful appeal. It is in these districts, too, that a profusion of wild flowers flourish, making the whole countryside beautiful and a constant surprise and joy to the visitor.

But these wild flowers are in danger. People explain at the beauty of a certain patch and forthwith proceed to break off the blooms or even tear the plants up by the roots. In a few short hours they are withered and thrown away. Had they been left undisturbed they would have given pleasure to scores of passing tourists, adding to the attractiveness of the route along which they bloomed. Not only so, but they would have repaid next year and by scattering seed far and wide would have greatly increased in number. The serious thing is that through destruction their beauty was lost, not for one season alone, but for all time, and the loveliness which marked so spot this year is bereft of its charm in future years.

The moral is: Stop this thoughtless picking of our prairie and forest wild flowers. Try to realize that these wild flowers mean not only beauty to our country but that they attract visitors and live an effect in adding to the material wealth and prosperity of the Canadian people.

Making Animals Feel at Home

Lions and tigers in Bronx Zoo will have an opportunity to become acquainted with scenes of their childhood. Painted backgrounds purporting to picture the plains of Africa and the jungles of India, are being installed in the outdoor cages. Similar backgrounds were installed in the reptile house several years ago.

To the troubadour of old, we are indebted for much of our knowledge of the customs and thought of medieval Europe. His songs, 2,500 of them, have been preserved. They deal with drama, romance and faith.

Diamond cutters who come to London to buy goods remain in semi-darkness until the time comes for examining the stones.

The Londoner Won

A traveller was talking of one of the great cities he had visited, and he happened to remark that London was the foggiest city he knew.

"Nonsense!" exclaimed an indignant Londoner. "I've been in a foggiest place than London."

"Where was that?" asked the traveller.

"I couldn't find out where it was," replied the Londoner; "it was too foggy."

Recent New Hampshire claims to have the widest concrete-paved street in the world, measuring 140 feet from curb to curb.

When the sun shines lay aside a little of your enthusiasm for a rainy day.

Americans Use Radiophone

Calls Increasing With Advent of U.S. Visitors to London

Radiophone talks with America from London are rapidly increasing with the advent of United States visitors. It has been found that a large proportion of the calls from London were made by American businessmen now staying here. Twenty-six calls to New York and elsewhere in the United States were made in one day last week from one London hotel and all by American business men. An American staying at a leading hotel paid for his telephone calls to Chicago four and one-half times as much as his hotel bill. One conversation alone cost him \$75.

Painful Sprains, Bruises, Restored By Nerviline

There is soothing power in Nerviline that has made it famous for the past fifty years. It sinks in deeply, it penetrates quickly, it takes away the pain from a sprain and brings about full relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Lumbago, if your limbs are numb and aching, use Nerviline and you will wonder, whether the pain is internal or external. Get a large 35-cent bottle from your dealer today.

Sends Greetings to Canada

President of Cuba Pleased With Existing Friendly Relations

Expressing his satisfaction with the historical and economic relations between Canada and Cuba, President Machado has sent cordial greetings to Canada through the Hon. Viscount Grey, the Cuban president discussed the affairs of the two countries with the Canadian minister during his short visit to Washington. It is understood that the proposed visit of Cuba to send a minister plenipotentiary to Ottawa was not discussed—New York Morning Telegraph.

RHEUMATIC MISERY

Relief Can Only Come Through Better Blood—Instruments of No Use

In no other disease does the blood become thin so rapidly as in rheumatism. Not only does it become thin, but it is loaded with impurities—rheumatic poisons. Without the proper treatment these poisons increase the inflamed joints swell and the patient becomes a cripple. Most treatments aimed simply to keep down the pain, hence with every unfavorable condition a renewed attack is inevitable. To rest cure rheumatism the blood must be enriched and the rheumatic poisons driven out. This is done by secretions of the body. This can be done through a course of Dr. Williams' Pink Pills and the blood, giving it new richness and redness. This should have led to the best results. That every sufferer from rheumatism who does not try Dr. Williams' Pink Pills is neglecting the most hopeful means of recovery is shown by the statement of Mr. David Carroll, Detroit, N.S., who says: "For years I was troubled with rheumatism, my joints were not only stiff, but they were swollen, and I was unable to move. I tried many medicines, but did not get more than temporary relief. Only when I have used Dr. Williams' Pink Pills did I realize what I suffered at times. I had begun to despair of getting better when I was urged to try Dr. Williams' Pink Pills. In a short time I could feel this medicine helping me so rapidly. I continued taking the pills and soon found that every trace of the trouble had disappeared. There was a great improvement in my general health. It is now two years, since I took Dr. Williams' Pink Pills and I have not had the least twinge of the trouble in that time. This is why I confidently recommend the pills to other sufferers."

You can get these pills from any medicine dealer or by mail at 50¢ a box from The Dr. Williams' Medicine Company, Brockville, Ont.

Canadian Affairs Seed

The superior quality of northern grown seed is nowhere more strikingly shown than in the success obtained with Canadian alfalfa seed. For a long time it was found difficult to grow alfalfa successfully in many parts of Canada, but the development of an ample supply of hardy strains of seed has, to a certain extent, solved the problem of winter killing and the Dominion's alfalfa crop increased from 25,000 acres in 1920 to 858,000 acres in 1928.

Elevator Construction

Grain elevator construction in Western Canada this year will be on an unprecedented scale, no fewer than 250 elevators being already projected.

The largest refrigerating plant in the world recently was opened in Buenos Aires. It is capable of handling daily 5,000 sheep and 10,000 cattle.

Treat cures with Minard's Liniment.

"The Confederation"

Name Given To New Canadian National Train Commemorates

Canada's Diamond Jubilee An important extension of Canadian National Railways passenger train service between Eastern Canada and the Pacific Coast, is announced by H. H. McManis, general passenger traffic manager of the System. Under a new schedule which becomes effective on June 24th, from Toronto, and June 27th from Vancouver, trains No. 3 and No. 4 now operating between Winnipeg and Toronto only, under the name of "The National" will operate between Toronto and Vancouver on a 92-hour schedule westbound and 91 hours eastbound. It was announced also that in honor of Canada's diamond jubilee, the trains under the new service will bear the title of "The Confederation."

These trains operate with the latest type all-steel equipment, including tourist and standard sleepers, dining cars, and the new schedule provides library cars, and have proven very popular with passengers between Toronto and Western Canada points since their inception. On the new schedule, the trains will carry a mountain observation car between Kananisles and Vancouver, and will thus provide passengers with the opportunity of seeing the beautiful scenery of the Fraser River country en route.

An important change in the route of "The Confederation" across the prairie provinces is also announced. Under the new schedule these trains will operate via Brandon, Manitoba, and Regina, Saskatchewan, thus giving through service to these important cities in the west.

Mothers can easily know when their children are troubled with worms, as the new schedule is applying a reliable remedy—Mother's Worm Expeller.

Farmers Appreciated Better Seed Cars

Attendance at 28 Manitoba Points Reached Total of 4,418

Report on the work of the Manitoba Better Seed and Poultry Cars which were operated by the Manitoba Provincial Extension Department of Agriculture in conjunction with the Canadian National Railways, during February and March, shows that a total of 4,418 people visited the cars and attended the lectures at the 28 points visited.

These figures indicate an average attendance of 157 persons at each point, a satisfactory result in view of the fact that the Better Seed Cars were being operated for the first time and of the weather conditions which prevailed at some points. Of the total attendance, 1,657 were children of Grade 8 and over.

In addition to lectures and displays of seedlings, the cars operated, practical demonstrations in the cleaning of seed were given and farmers were provided with seedling material which should be used to produce the best results. Live poultry were used in the poultry car which also had accommodation for lecturing purposes.

The staff, consisting of George Black, R. Whittington, F. B. Hunt, and at various times visits were paid by C. M. Mackay and H. R. Wood of the Extension Service Department and by officers of the Agricultural Department of the Canadian National Railways.

Is Becoming Important Factor

Tourist Business Means Millions of Dollars to Canada

The tourist business of Canada has grown to such proportions that it is now considered by the Dominion treasury to be an extremely important factor in the annual revenue of the country. How many people realize, for instance, that last year's turnover was very nearly \$220,000,000? How many realize that this figure is nearly three times as much as Canada's entire budget was twenty years ago? But the important point to remember in this connection is that this enormous business has been developed by the towns and cities of the Dominion that have conducted campaigns similar to that which Victoria conducts every year. Yet some people hesitate about approving a publicity campaign, the result of being in mind the relationship between the insignificant investment and the very large return—Victoria Times.

Teacher: "Surely you know what the word 'nirrot' means, Tommy. After you've washed, what do you look at to see if your face is clean?" Tommy: "The towel!"

Minard's Liniment for dandruff.

Canadian Farmer Tells His Experience

"Les" Booth, widely known Ontario farmer, and a sick man for 20 years, suffered daily, only half alive. Now strong, robust, vigorous, credits new found health to Tanlac

Though popularly known as "Les," Mr. Booth's correct first name is George. His home is at 271 Perth St., Brockville. For the past three years he has enjoyed vigorous health but was bedridden before then in a hospital in his own words. "For twenty years my arms, shoulders, back and hips, ached with rheumatism," said Mr. Booth. "Often I had to quit work early and I remember one bad spell that kept me in bed for six months."

"My name got to be so chronic that the help ran the farm. I was practically helpless. Even my wrists and hands would swell up so that I couldn't write my name. I dreaded getting up, for I got no rest, but lay there in agony, waiting for morning. I never had an ache, it's hardly believable. If I got up to go to the toilet, I could do so, but I was so weak, I'd tell you."

"Three years ago I decided to give Tanlac a good trial, for nothing else had helped me. I was so weak, I believe such results were possible as those Tanlac showed. The aching stopped, my appetite came back and I could eat heartily. My nights became more restful, too, and I slept

soundly. I gained 16 pounds which I still retain, and I now work hard outdoors from 8 to 10 hours a day. I never have an ache, it's hardly believable. If I get up to go to the toilet, I can do so, but I was so weak, I'd tell you."

"If your health is broken from overwork or neglect, profit from Mr. Booth's experience. Try Tanlac, nature's own body builder, made from roots, herbs and bark. Your drug, it's it! Over 52 million bottles sold."

Destroy Machine-Carved Glass

Craftsmen Fear Machinery Will Ruin Hand Cutting Trade

Bohemia's famous glass-cutting industry is greatly agitated over the adoption of modern machinery to replace the process of cutting by hand, which has been the source of livelihood of thousands of families.

Fearing ultimate destruction of their handicraft, 1,000 trade union cutters, representing an ancient guild of craftsmen, invaded a half dozen factories and summarily demolished large stocks of machine-carved glassware. Intervention by the police failed to pacify the rioters and the disturbances are spreading through the glassware belt.

Production of a carload of machine-carved glassware requires less than a single hand cut vase. The revolting glass cutters declare. They claim the foreign markets still demand hand-cut wares and announce their determination to halt further invasion by mechanical appliances calculated to destroy their profession.

Many Americans Live in London

Number Increases Fifty Per Cent in Past Year

Although a heavy reduction occurred in the number of aliens living in Great Britain, the number of Americans living there increased almost 50 per cent, in ten years. This is disclosed by the general report of the 1921 census of England and Wales, published for the first time.

The total population of England and Wales numbered 37,538,629, of which there were 18,752,329 males, and 18,786,300 females. Its density was 619 persons to the square mile, or about an acre per head greater than that of any other country in the world for which statistics are available. Nearly 80 per cent of the population live in urban areas.

"Surplus" women increased from 800,000 in 1,700,000. The Welsh language is shown to be gradually dying out.

Corns cripple the feet and make walking a torture, yet sure relief is the offering of Holberry's Corn Remover is within reach of all.

The man who knows nothing wants to find out everything is almost as big a bore as the man who thinks he knows everything and insists upon telling it.

"Moto-Balloon" New Invention

Observation Post Can Be Quickly Transformed Into Semi-Drigible

A "moto-balloon," capable of remaining immobile in the air as an observation post, though unfastened, or of being transformed into a semi-drigible within a half hour was launched at Milan, Italy, recently. It was christened the "A.P." after its inventor, Colonel Avorio, and his assistant, Pavone.

It consists of a special type of captive balloon with the body replaced by a metallic tubular apparatus equipped with a 600-horsepower motor and containing room for a crew of several men. It is capable of flying four hours at a speed between 30 and 40 miles an hour at an altitude of 5,000 feet.

Husband And Wife Are Both Benefited

Mr. F. Spilay Speaks Highly of Dodd's Kidney Pills

Saskatchewan Man Who Suffered From Kidney Trouble Tells of the Relief He Gained and Found.

Springdale, Sask. (Special).—"Both my wife and myself have suffered with strained kidneys, the pain being so bad at times that it was impossible for either of us to stop and getting up was most difficult and painful. We used Dodd's Kidney Pills and found ready relief in them for this trouble."

This statement comes from Mr. T. M. Spilay, Box 2, Springdale, Sask. Dodd's Kidney Pills are purely and simply a kidney remedy. They act directly on the kidneys, strengthen them and putting them in condition to do their full work of straining the impurities out of the blood.

Dodd's Kidney Pills have restored sound health to thousands of troubled men and women. Give them a trial at once.

The road to good health lies through the kidneys, so keep them in good condition with Dodd's Kidney Pills.

"Were you in Paris, London, Berlin, I really couldn't tell you. My husband can't afford the tickets."

Mau learns from his own mistakes, but he never lives long enough to complete his education.

A woman never thinks of her husband as a gambler as long as he does not lose.

Genuine BAYER

Proved safe by millions and prescribed by physicians for Colds Headache Neuritis Lumbago Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 10 tablets. Also bottles of 24 and 50—Druggists.

Aspirin is the trade mark (registered) name of Bayer. Manufacture of Monoclonal Aspirin is a registered trademark of Bayer. Bayer's Aspirin is the only Aspirin which is pure and free from all harmful substances. It is well known that Aspirin means Bayer's Aspirin. In order to protect the public against imitations, the Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

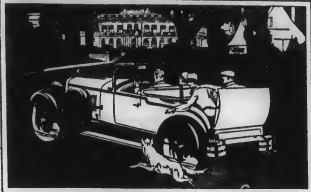

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher* on every direction on each package. Physicians everywhere recommend it.

The New and Finer PONTIAC SIX

Youthful, Rakish, Colorful

EVER since the Pontiac Six flash-market, folks have been wondering, "When will General Motors build a sport roadster on the Pontiac Six chassis? How soon will Pontiac Six power, speed, beauty and endurance be offered in a dashing, low-slung two to four passenger type?" Now... here it is! As lithe as a thoroughbred, as happy as a lark, as smart as a debutante just back from Paris. Lucerne Blue is the prevailing color—Lucerne Blue Duo brightened by striping in Faerie Red. And just as far from the commonplace is everything else about the car—gray shark grain leather upholstery, nickel-plated windshield side arms, a completely removable top of double texture grey—and a swanky, flaring rear deck with a spacious disappearing rumble seat! You never saw a sport roadster quite like this—quite as alert, as intimate, as refreshing to the eye. And if there's youth in your blood—or youth in years—you'll be wanting it some day soon—because it's a splendid quality car, through and through.

Here and There

The Canadian Pacific purchasing office located at Siam, B.C., spent more than \$100,000 in 1928 for Okanagan products. Fifteen years ago such purchases amounted to but \$5,000.

With the fisheries of the province of British Columbia running to \$21,000,000 annually—or half the Canadian total—numbers of enquiries are being received from financial interests in Eastern Canada and the United States, with a view to spying out business opportunities.

Until the problem of truck competition is solved satisfactorily all transportation in Canada will suffer, according to T. E. McDonnell, Vice-President of the Canadian Pacific Express Company, in a Toronto address recently before the Transportation Club. He states that under the present transportation regulations the railway and express companies are operating under very unfair conditions.

For the second time in three weeks the stork has paid a visit to a Canadian Pacific passenger train. Yesterday on the Imperial Limited going east from Vancouver, Mrs. Olson of Malakwa, B.C., gave birth to a son between Malakwa and Revelstoke. Mrs. Olson was on the way at the time to the Revelstoke hospital. Railway officials and employees did all in their power to render assistance. Telegraphic dispatches from the hospital state that both mother and son are doing well.

The election of J. H. R. Fairbairn, of Montreal, chief engineer of the Canadian Pacific Railway, as president of the Engineering Alumni of the University of Toronto, was announced at a dinner-smoker of the alumni held in Hart House recently. More than 150 graduates acclaimed the new president with the enthusiastic spirit characteristic of a gathering of "School" men. The chief speakers of the evening were Sir Robert Falconer, President of the University, and Mr. Fairbairn.

The rapid strides made by Prince Edward Island's seed potato business, aggregating 800,000 bushels for the past season, mostly shipped south, formed a subject of discussion at the 51st annual convention of the New Brunswick Farmers' and Drymen's Association here. It was pointed out that this business has rapidly developed; that ten years back not a single seed potato was sold outside of the province. The remarkable advance in this business was due, it was claimed, to the production of a disease-free potato.

Immigration to Canada in the ten months of the fiscal year ending January 31st, amounted to 118,199, compared with 76,439 for the same period of 1925-6. This is an increase of 55 per cent. January immigration amounted to 4,164, compared with 2,324 for the preceding

January, a gain of 79 per cent. Of this immigration 899 were British, 905 from the United States and 2,360 from other countries. During January 2,297 Canadians who had gone to the United States with the intention of remaining permanently returned to Canada, making a total of 50,898 so returned for the ten months of the fiscal year.

The Hon. William D. Esler, Minister of Customs and Excise, announces that the present period of 30 days of free entry into Canada of United States motor tourists on a permit will be extended to 90 days, to conform with the privileges now granted by the United States authorities, who admit Canadian cars carrying motor tourists free into that country for 90 days. The only difference will be that the Canadian permit will not initially be for 90 days, but for a first and second 30-day extension, if and when the tourists can show bona-fides and recommendation from reputable associations of automobilists in the United States. A larger tourist movement in Canada is expected to result from the change.

Vancouver—The largest shipment of tree seeds ever made within the British Empire was that of 3,200 lbs. of yellow pine seed sent from New Westminster to New Zealand by the Dominion Government seed extraction plant at the former place. A further cargo of 2,600 lbs. of seed is to follow shortly. This seed will be planted on waste lands in New Zealand.

Quebec—The Canadian Pacific Railway has decided to add three hundred rooms to its famous history, the Chateau Frontenac, and to meet the requirements has taken options on a number of properties near the present buildings. Through the construction of the proposed new wing the Chateau Frontenac will probably become the largest hotel in the British Empire, having some 1,200 rooms.

Christmas travel from Canada to the Old Country is expected to be exceedingly heavy this year over the C.P.R. lines and by the Canadian Pacific liners. High wheat prices and good crops are given as the causes for this exodus. The rush will be inaugurated virtually by the sailing of the C.P.R. liner Montpelier on December 7, for which a special train will be run to ship side at Saint John.

Recognized throughout the West as two of the outstanding authorities on mountain transportation, James and William A. Brewster, president and general manager respectively of the Brewster Transportation Company, visited Canadian Pacific headquarters in Montreal and in an interview for the press predicted great popularity for Banff, Lake Louise and other points in the Rockies. Americans, they stated, were regarding these centres as some of the outstanding holiday resorts in existence.

Why The Salvation Army Appeals To The Public To Help Swell Self-Denial Fund.

The recurrence of the Salvation Army's "Self-Denial" appeal makes it appropriate to refer to the system of finance adopted by this organization.

The Army has thought out its financial system with the same care and thoroughness which it has devoted to every part of its work. The method it employs has earned commendation from financial experts and authorities who have studied its principles.

lands is supported (one-half of the Self-Denial money raised in each country goes to this fund).

3. The Special Purpose Fund, embracing gifts for special work named by the donors.

4. The Social Fund, from which the social work is supported.

The Army is a huge business organization. It is true that its "profits" are spiritual and moral, but careful and adequate financing and bud-

The Salvation Army brings cheer and practical help to many a desolate family

The General is the trustee of all Army funds. He is so constituted by the foundation deeds.

Both the Founder and the present General, having a high sense of the responsibilities of trusteeship, set themselves to devise and perfect a system to secure in the case of every department, and of every individual officer, so far as Army incomes and outgoings are concerned, a strict economy, an exceptional control over expenditures, and a careful and detailed accounting and auditing.

This closely detailed system of Army finance is not due merely to a love of method and thrift for their own sake. It has been adopted because it helps the Salvation Army to reach its goal. It represents these principles for which the Army stands: worked out in terms of the ledger and the balance sheet.

Think what a first-class investment the Army is. It has brought into action a wonderful volume of service. It has developed gifts and energies in multitudes of individuals with regard to whom, but for the Army, it would never have been thought they "had it in them." And these people are winning others from sin and shame and leading them to the path of duty and to purity and honor and peace.

WHERE MEN ARE RE-MADE

The Salvation Studio is the Place for Transformations. It is the great joy of the Salvationists that, by the blessing of God, men are made anew under his ministrations. SELF-DENIAL WEEK gives an opportunity for all to co-operate in this work.

In every branch of the Army's work a careful procedure is followed with regard to each expenditure, small or great. This involves skilled professional work as well as the utmost personal integrity, and more than one corporation has been known to covet the staff of the Army in its administrative and accountancy branches, although, of course, the services of these experts are secured to the Army on the same conditions as those which govern the appointment of other officers.

The trusts of the Army are as follows:

1. The Central Fund, from which it provides for the maintenance of its evangelistic work.

2. The Missionary Fund, from which our work in non-Christian

perity. That is a thing, on the lowest ground, of enormous economic value. And never was there, monetarily, a cheaper service, though in other respects it costs dear.

Yes! Money has its part to play in the work of serving men and women. In the Salvation Army it is transmuted into more precious metal—self-sacrificing service, earnest soul-seeking, and a thousand loving works of compulsion and prevention.

This is why the Salvation Army appeals to the public to help in its Self-Denial Effort. You can give to no worthier cause.

The local branch of the Salvation Army solicits the hearty support of all its friends throughout The Pass in support of the Self-Denial campaign which started this week in Bellevue, Hillcrest, Blairmore, and will commence in Coleman Saturday, May 14th and continue for one week.

PROSPERITY OF THE WEST IS NOW ON A SOLID BASIS

Montreal. — A picture of Western Canada steadily climbing to prosperity on a solid basis has been painted for members of the Canadian branch of the Canadian Credit Men's Trust Association by W. R. Bottom, Edmonton, the national president of the organization, at their monthly luncheon today.

Booms and other artificial trade stimulants had been left behind, Mr. Bottom declared. He described how mixed farming was playing an important part in the development and prosperity of the prairies, and said that in his judgment just one more good crop is needed to put this country "over the top."

He was confident this would be a good year for the West and that eastern business houses at the end of the year would see some reflection of this in increased orders for the goods they had to offer for sale in Western Canada.

Declares Border Law Menace to Friendship

Toronto Banker Urges Compromise in U.S. Passport Regulations for Canadian Citizens

Buffalo, N.Y. — Members of the Buffalo Kiwanis Club attending a United States-Canada luncheon were warned by George Wilson, Toronto banker and civic leader, that "the new passport requirements for Canadians working in this country must be compromised in some manner in the present unfriendly and extremely cordial relations between the two countries are to be undermined."

"The two countries this year are celebrating the fifty anniversary of the Rush-Bagot treaty which practically eliminated the activity of armed forces along the border," said Mr. Wilson. "And year by year the relations between the peoples have become more friendly. Yet, in the midst of all this and at a time when thousands of Canadians and Americans, an equal number of Americans count daily from one country to the other, furnishing excellent labor for the United States, has announced its new passport regulations."

"I sincerely hope that some compromise will be reached. Canada undoubtedly would retaliate if the new regulations were to stand."

Served in Canadian Forces

Funeral of U.S. Citizen Attended by Canadian "Mounties" in Full Regiments

Washington, D.C. — For the first time in history a Canadian Mounted policeman in full uniform attended the funeral of a United States citizen on United States soil.

Sergeant Major Richard Uroff, a native of Baltimore, who served in the United States army throughout the war, was buried here at Congressional Heights, attached to the Canadian legation, attended the funeral.

Mr. Massey, the Canadian minister, was represented by his private secretary, A. T. Stone. The coffin was draped with the United States and Canadian flags. Stone laid a wreath on the coffin.

Increase in Overseas Immigration
London. — Improving international conditions overseas are noted in the report of the overseas settlement committee for 1926 under the chairmanship of the Earl of Clarendon, which was issued recently. The report shows that further facilities for assisted passages resulted in 66,343 settlers migrating under the Empire Settlement Act last year, compared with 39,359 in 1925.

Great Britain Desires Peace
New Orleans, La. — "The interests of Great Britain are centered first and foremost in the maintenance of peace, and you may rest assured that if journalists or others say the contrary they are talking what is obvious nonsense," Sir Esmé Howard, British ambassador to the United States, declared here at a luncheon, before the English Speaking Union of New Orleans.

Mint at Canton Burned
London. — An exchange telegraphic despatch from Hong Kong reported receipt of a message saying the Chinese Government (Canton) mint at Canton was ablaze. A fire, it was expected, the message added, and Tai Chuk Lam, described as leader of the riot, had been arrested.

W. N. U. 1679

May Extend Empire Settlement Agreement

New Features Likely to be Included in Proposed Extension

Ottawa. — An extension of the 1906 family Empire settlement agreement is awaiting the consideration of Hon. Robert Forke, Minister of Immigration, in London, and it is possible that some new features will be included in the new agreement.

There are several new proposals respecting boy immigration which will be taken up with the British Government this summer. Mr. Forke will visit all the immigration department agencies in Great Britain and will also visit the Scandinavian countries to confer with authorities there.

Prepare for Advance On Canton

Four Armies of Hanukw Nationalists Ready for Attack Says Report

Canton, China. — The Hanukw section of the Nationalist (Guomintang) is reported to be preparing for a general advance upon Canton with four armies.

The armies, it is said, will move through Hunan province, and Canton by way of the east and north rivers and utilizing the Red forces distributed in the districts around Canton, important source of revenue and site of a large arsenal recently seized by its independence of both the Hanukw and Nanking Nationalist regimes. Later, however, the moderates rounded up the Reds and shifted the city nominally adhered to the Kuomintang faction.

C.N. Earnings Show Increase

Summary for March Shows Substantial Advance Over March, 1926

Montreal. — Increases of \$1,125,292, or 5.13 per cent. in gross earnings, and \$71,686, or 3.65 per cent. in net earnings are shown by the operating summary for the Canadian National Railways during the month of March, 1927, as compared with March of last year. Working expenses during the period increased by \$1,056,611, or 5.97 per cent., and the operating ratio for the month was 81.05 per cent., as against 80.4 per cent. in March, 1926. For the first three months of the present calendar year, gross earnings of the Canadian National system are shown to be \$62,512,461, an increase of \$2,465,355, or 5.87 per cent. over the earnings for the corresponding period of 1926.

Predicts Population Of Eight Billion

Total Number on Earth in 300 Years

New York. — Within 300 years the human race will reach a total population of 8,000,000,000 persons, the estimated figure that can live on the earth's surface, says Professor Albert F. Parker, of the University of Berlin. He arrived on the Hamburg American liner Cleveland to attend the bi-centennial of the American Philosophical Society at Philadelphia. Asked what may occur when the earth's surface becomes congested with people, he said: "It passes the faculties of my imagination."

Not Seeking Prize

Paris. — Major Francis Coll, French aviator, said that he and his partner, Captain Nungesser, with whom he is planning a trans-Atlantic flight, are not competing for the \$25,000 prize offered by Raymond Orteig for the first flight between New York and Paris. "Our only engagement is to try for a straight line non-stop flight record," Major Coll said.

Plan Longest Non-Stop Rail Run

London. — Plans have now been completed for the new longest non-stop rail run in the world from London to Cardiff, in Lancashire, on the Great Western railway. The run will be 256 miles—ten miles longer than the present longest non-stop run on the U.W.R. from London to Plymouth.

Cable Congratulations to Prince
New York. — The Prince of Wales has been congratulated by cable by the American Society for the Prevention of Cruelty to Animals. The Prince returned to attend a ball which had been arranged in his honor.

Constructing Fast Submarine
London. — An attempt to cross from Europe to the United States in fifty hours by means of an especially constructed submarine boat is to be made late this year by Ettore Guatt, owner of an automobile factory in Alsace, France.

Statue of Laurier

Memorial of Parliament to be Erected at Ottawa

Ottawa. — A statue of Sir Wilfrid Laurier, the memorial authorized by Parliament to express the respect and veneration of the Canadian people for this statesman, is to be erected before July 1, near the southeast corner of the east block, facing the Parliament Hill.

The location is close to Wellington Street and the Chateau Laurier, and today four stakes mark the site of the concrete base which will be constructed immediately to carry the statue.

The statue itself is the work of Emile Brunet, of Montreal.

May Propose Abolition Of Large Submarines

Reported Intention of Britain at Geneva. — With the preparatory disarmament conference disbanded, interest now centres on the three power naval conference between Great Britain, the United States and Japan, which is expected to open here about June 30, especially as reports have already circulated that Great Britain may propose abolition of large sea-going submarines.

In this connection, experts have pointed out the likelihood of the United States insisting on the use of those craft to maintain communications with distant possessions. The opinion is heard freely expressed on all sides that Great Britain, by the proposal, has again taken in this crisis, has again given the lead to the whole civilized world.

"Dud" Shell Kills Workman

Men Were Removing Debris From Famous Langenscheidt Field

Paris. — The casualty list of the World War was augmented by three deaths when a terrific explosion occurred on the scene of the famous "dud" ground, Langenscheidt, well known to Canadian soldiers. Two workmen engaged in the still unfinished task of clearing debris from the battlefields, while moving a plant unexploded shell from the ground, somehow jarred the brass casing on its nose and were blown to bits in the blast that followed. Another workman standing thirty yards distant was struck by a shell fragment and died in hospital.

OFFER HINTS FOR CELEBRATION OF CANADA JUBILEE

Ottawa. — Ten thousand copies of a pamphlet containing general suggestions for the guidance of committees in charge of local celebrations have been sent to every organized municipality in Canada, to all members of Parliament and members of provincial legislatures, by the national committee for Jubilee celebration.

It is suggested that the mayor or lord mayor call a public meeting to select a Jubilee committee. This committee would have charge of the program for July 1, 2 and 3, and would appoint sub-committees on various phases of the celebration. The pamphlet contains suggestions as to decorations, ceremonies and as to the time for the events, with proposals regarding parades, school children, tableaux, veterans and militia, new centers, old settlers, Indians, decorations of monuments etc.

The national committee encourages the main celebration for Friday July 1 with a sports program for Saturday and Thanksgiving services on Sunday.

Westerners Back from World Tour

On April 12, 1927, the Canadian Pacific flagship Empress of Scotland docked at New York after a successful four-month voyage around the world to twenty countries. This group of passengers are all from British Columbia and are, left to right, George A. Turbell, Courtney; Major and Mrs. Thomas H. Worney, Kamloops; Daniel Kifayrick, Courtenay; and Charles E. Blaney, Vancouver.

PAY TRIBUTE TO BRITAIN FOR AID GIVEN IN CHINA

Vancouver. — Most ardent from Shanghai give details of the humiliations sent the British Government by the non-British residents of the big oriental city as a tribute to the British of Britain in sending troops to protect the settlement.

The text of the vote of thanks was as follows:

"We, the undersigned, non-British residents of Shanghai, wish to express our appreciation to His British Majesty's Government for the prompt and adequate measures taken for the defense of Shanghai. Though we realize that, quite naturally, the despatch of troops was primarily for the defense of its own nationals, yet the fact remains that, of whatever nationality, have benefited equally. If the British troops had not arrived in the time of the emergency, we should now be in an extremely uncomfortable and dangerous position. If we had not actually been forced to leave the place, it is certain that the women and children would have had to be evacuated, and the settlement would probably have shared the fate of Hankow and Kiating."

The opinion is heard freely expressed on all sides that Great Britain, by the proposal, has again taken in this crisis, has again given the lead to the whole civilized world.

"The events of the last few days have brought home forcibly to all of us the immense value of the timely steps taken by the British Government for the protection of Shanghai. The mere fact of the arrival of the British forces has prevented an earlier outbreak of terrorism in the settlement itself."

"It has, for some time, been clear to most of us that but for the British troops we would not have been here today."

"Of whatever nationality or creed, we must admit that when other troops stood aloof, the British Government acted, in spite of all obstacles. We are aware of the political strategies going on in nearly every country in the world. We know that the British Government is daily harassed and criticized by forces at work to undermine and to destroy. These forces are at work everywhere, here and in our own respective countries. It is seldom that most of us here find an opportunity of doing a good deed, but here is an excellent chance of adding our mite to a big cause; to silence, if but for a brief spell, the stupid braying of ignorance, cunningly employed by dangerous forces."

It is interesting to note that there were 2,350 signatures of members of 22 different nationalities.

To Be Tried As Spy

London. — Sitting at Old Bailey, the grand jury returned a true bill against Lieut. Commander Colin Meyers, retired British naval officer, who was arrested in March for alleged illegal possession of submarine plans. Commander Meyers will be tried on a charge of obtaining "certain plans, sketches, documents and information calculated to be useful to an enemy."

Have Not Prepared Draft

Geneva. — The preparatory disarmament commission adjourned without fulfilling its allotted task, preparing a draft treaty for the reduction of armaments. President London believes a successful disarmament conference is assured.

Westerners Back from World Tour

On April 12, 1927, the Canadian Pacific flagship Empress of Scotland docked at New York after a successful four-month voyage around the world to twenty countries. This group of passengers are all from British Columbia and are, left to right, George A. Turbell, Courtney; Major and Mrs. Thomas H. Worney, Kamloops; Daniel Kifayrick, Courtenay; and Charles E. Blaney, Vancouver.

Intends to Attempt Trans-Atlantic Flight

French War Ace Plans to Make Trip in September

New York. — Captain René Fonck, French war ace, has arrived from France. He expressed sorrow over the death of Lieut. Commander Noel Davis and Lieut. Stanton H. Wooster, in Virginia, and announced that regardless of how many flights might precede him across the Atlantic, he would attempt to fly from New York to Paris in September.

Captain Fonck said the plane he will use will be completed at Col. Leake Point, L.I. in July and will be a duplicate of the biplane which was burned up with a loss of two lives when taking off last September.

Despite "razzies" the backers of the Bellanca plane, which recently established a new world's endurance record, have announced they are practically ready to hop off for Paris.

This plane, in which Clarence D. Chamberlain and Bert Acosta stayed in the air almost 52 hours, is the most reliable of the biplanes in the race. The accident to the last machine has not slowed up preparations for its flight.

Preparing for Long Trip

Two Parties of Mounted Police Leaving Soon for Far North

Edmonton. — Specially selected physical qualifications and trained to the minute, two parties of Royal Canadian Mounted Police are making final arrangements at headquarters here for a long journey to the far North where they will be stationed for at least two years.

One party will start from Vancouver in May, for service in the Yukon while the second will make a tremendous overland journey north of Edmonton, some of them designed to do patrol work at Herschel Island, the extreme Northwest of Canadian territory. The final disposition of the men will be made by those in charge of the northern posts.

Corporal T. Reddyhoff and Constables A. W. King and W. H. Macfarlane will go to the Yukon.

Ready to leave on the Arctic trip are Constables M. A. Couchman, W. S. Carter, R. J. Bell, T. G. Whelan and C. R. Blicher.

Cannot Use Word "Doctor"

Decision of Ontario Judge Regarding Chiropractors and Osteopaths

Toronto. — Osteopaths and chiropractors are debarred from using the word "doctor" as an occupational designation relating to the treatment of human ailments. In a decision handed down by Mr. Justice Middleton on a stated case submitted by Dr. Edmund Jones, His Lordship states the use of the word by those who are not registered surgeons or physicians under the Ontario Medical Act is held to be illegal.

FIX RAIL RATES THAT WILL HELP CANADIAN TRADE

Ottawa. — The order-in-council under which the Board of Railway Commissioners are conducting an inquiry into freight rates required the commission to fix just and reasonable rates that would encourage and develop Canadian trade.

However, A. Fraser, K.C., counsel for the Canadian National Railways, insisted this did not for a moment suggest that the present rates were unjust or unreasonable when they received the approval of the board. Conditions were constantly changing, Mr. Fraser said, and what was fair and just at one period in the past might not be so now. This was what the board now had to take into account.

Some discussion arose between Deputy Chief Commissioner Violette and the railroads as to exactly what the railroads could do to help the Government in council to issue instructions to the board as to the lines upon which they should proceed in the adjustment of rates. It was agreed that the railroads would be the sole judges of what would be fair and just rates, subject to appeal to the Government in council and His Excellency's powers of review were almost to the degree of being arbitrary.

It was further agreed that an order-in-council might be set forth giving certain principles for the guidance of the Railway Board, but if these principles could be shown to be in conflict with the provisions of the Railway Act the order-in-council would have to go.

CANADA AND U.S. CONFER ON NEW BORDER RULING

Washington. — Frank B. Kellogg, secretary of state, has taken up with the Labor Department the request of the Canadian government who want a conference on immigration regulations affecting the movement of Canadian citizens across the border to work in the United States close to the international line.

Acceptance of the Canadian suggestion for a joint conference is foreshadowed, but the formal communication may be delayed a few days to await a preliminary exchange of views and formulation of United States policy between the state and labor departments.

The regulations issued by the Labor Department, placing some restrictions upon Canadians who want daily back and forth into the United States where they are employed, was made effective six months after their promulgation a week ago.

Fighting War by Radio

League of Nations May Have Powerful Station at Geneva

Geneva. — Radio may be used by the League of Nations in its fight against Bolshevism. It is hoped that eventually the League will have its own powerful radio station here. Technicians are to be asked whether it will be possible for a refractory government to "jam" the wave lengths in order to prevent the League's broadcast reaching its subjects.

The League Council already has asked to use aeroplanes in anti-war demonstrations, possibly the League manifesto for citizens of rebellious states. Building of a League aerodrome here has been suggested.

Stole Safe From Toronto Store

Amount Secured by Thieves Only About Fifty Dollars

Toronto. — Entering Arnold's meat market, Broadview avenue, at an early hour today, thieves dragged a small safe weighing about 200 pounds out to the street, and, placing it into a light motor car, drove off. People living above the store heard the commotion below and telephoned the robbers. The amount of money in the safe was not exceeded \$50.

Will Not Repeat Invitation

Geneva. — The League of Nations declined to repeat the recent invitation of a long standing controversy between Switzerland and Russia, not to issue a second invitation to Moscow to participate in the forthcoming economic conference. The first invitation was declined because the conference was to be held on Swiss soil.

Will Take Action on Canada

Montreal. — Miss Florence Cartier, 78-year-old surviving daughter of Sir George Etienne Cartier, one of the Fathers of Confederation, has accepted an invitation to travel with W. Beatty to take a trip across Canada next July in connection with the diamond jubilee celebration. Miss Cartier resides at Cannes, France.

New Publicity Man

Edmonton. — D. A. McCann, editor of the Alberta Farmer Journal, has been appointed publicity commissioner for the Alberta Government. In succession to Colin G. Croft, recently removed to Montreal. He will take up the duties of the office in about two weeks' time.

Ramsay MacDonald Improving

Philadelphia. — Right Hon. J. Ramsay MacDonald, former British Labor Premier, who is in Jefferson hospital from a sore throat, was reported by his physicians to be "improving steadily." No indication was given as to when Mr. MacDonald would leave the hospital.

Good Reception in North

Bernard Harbor, N.W.T. (via Asinivik Radio). — Fans here have been blessed with phenomenal reception during the winter and still are able to get American as well as European stations during the daylight long speaker volume.

Entitled to Relief

Regina. — Approximately 40 men, some of the Saskatchewan civil service have received notice that they will be entitled to retirement under the Superannuation Act on November 1. It is said that these are men who have reached the age of 45 years by May 1.

THURSDAY, MAY 5, 1927

EDITORIAL NOTES

"Save the Forest Week" is well enough in its way, but why not a "Save the Forest" year, each year? Why not "Save the Forest" clubs? Why not include an elementary forestry course in the curriculum of Canadian schools?

Miss Agnes MacPhail, M.P., has stirred up a hornet's nest by a letter, addressed to the school children of her home riding, entitled, "Hands off China." Many a promising public career has been wrecked by a slip of the pen.

Labor members of the Glasgow city council have decided that when King George and Queen Mary visit the city this summer there will be no official welcome accorded them. The Scots will rat their own hags.

The "sound of a face" has been transmitted by television across the Atlantic, from London to New York. Some faces are loud, all right.

Mussolini says woman is just a parenthesis. With most men she is a problem.

Should Operate Observation Cars.

The Canadian Pacific Railway, through Mr. N. R. DesBrisay, general passenger agent, have just announced their summer schedule which makes provision for equipping every transcontinental train with open air observation cars. In all, some eight transcontinental trains will leave eastern and western terminals starting from May 16th. The Canadian Pacific is to be congratulated on its main line service, but it should keep in mind the scenic route of the Crow's Nest Pass, the connecting link with coast points. Passengers on the Crow's Nest line lose the value of the mountain scenery because of the fact that this line has never enjoyed the privileges of the main line. An open air observation car on the Crow would induce passengers to use the Crow line, the most scenic route of the west, which travels through the heart of the Canadian Rockies. Boards of Trade in every town and city along the Crow should prevail on the Canadian Pacific to further improve their excellent service, by introducing the observation car, the missing link in a first class passenger service.—Cranbrook Herald.

Something New.

What with mail by airplane, telephoning to points not long ago miles out of reach, trans-Atlantic and otherwise, one is prepared for almost any wonder in the line of invention. Something that has caused a good deal of curiosity and favorable comment in Calgary this spring is the new mailing machine installed in the offices of the Alberta Co-operative Wheat Producers, under direction of the post office department.

Two meters for one and two cent stamps were installed on the machine, which stamps letters at the rate of 8,000 an hour.

The postage is paid for in advance and the meters are set and sealed in the Calgary post office. When the stamps are exhausted, the machine will not print until the meters are re-set. The machine stamps

the permit number on the envelope and also cancels it, which enables the post office to handle the mail much more rapidly.

One of the great advantages of the mailer is that it seals and stamps letters at one operation, and also gives a complete check of the post office account in the mailer's office.—Commercial Review.

Across Canada.

The habit of overcoming a provincial outlook is growing with Canadians; to look across the Dominion and realize what Canada as a whole is accomplishing, what her developments are, what her increase in potentialities is, one of the most stimulating of occupations.

For instance: Canada's mines produced a quarter of a billion dollars new wealth last year and important developments in the mining fields forecast that we are on the threshold of a period of activity in this field that will dwarf all past records. In all lines of production a record number of men were employed last year and wages were higher in proportion to the cost of living than in 1913. The farmer receives 60% more for his products than he did in that year and pays only 50% more for what he purchases. Bank deposits and investments made new high records last year. Building construction showed a big increase. There was big expansion in the pulp and paper industries. The railroads had greatly increased earnings. Both foreign and domestic trade showed big expansion, foreign markets were developed, and business failures decreased from previous years.

Mr. H. A. Craig, Deputy Minister of Agriculture for Alberta, says the poultrymen of his province are showing a great interest in the coming Congress. They had a provincial committee which was doing good work. First selections of live birds for the Congress were now being made by a representative of the committee who will later on make his final choices. The province hoped to put on an exhibit worth while.

Here and There

Passengers aboard the Canadian Pacific Empress of Scotland were not deprived of visiting China on the present round-the-world cruise of this ship, on account of the recent trouble in that country. Word from the cruise director is to the effect that the passengers received a warm welcome at Shanghai and that the Chinese were most friendly.

A new Canadian bird, the "turken," has made its appearance. It is a cross between a turkey and a Rhode Island hen, and was first brought to public attention at the Edmonton poultry show. George Spurgeon, who raised it, claims that it will effect a revolution in the poultry business, as it combines the best features of the hen and the turkey. It has a hen body and a turkey head.

His Majesty King George and H.R.H. the Prince of Wales have notified the British section of the World's Poultry Congress that they intend to exhibit poultry at the congress exhibition to be held in Ottawa from July 27 to August 4 next. There is also a possibility of the Queen of the Netherlands and King Alfonso of Spain sending exhibits, in which case the Canadian capital will be the first city in the world privileged to house the exhibits of several royal flocks.

The Indians of the three prairie provinces last season produced approximately 1,000,000 bushels of grain, of which about half, or 488,000 bushels was wheat, according to a recent government report. There are about 35,000 Indians in the area in question and the portions reserved for their use include some of the most fertile land of the west. They had 97,000 acres of land under cultivation in 1926 and they own about 25,000 head of cattle and 35,000 horses of a good type.

Warren Cordingley of Ashton, Idaho, won the 85-mile dog race from Calgary to Banff held recently in connection with the Banff annual Winter Carnival. The race was one of the hardest fought in the history of these events. Cordingley's lead dog broke down and was carried to the finish line on the sled. The "Mile" team, of Banff, picked to win the race, was attacked by town dogs near Calgary. Both driver and dogs were badly bitten but stuck to the trail and finished.

Applications for permits to develop hydro power in Western Ontario and Northern Manitoba are on a scale that represents an ultimate volume of 5,000,000 horse-power, indicating the industrial growth that the territory is achieving. These range all the way from the Lake of the Woods country to the basin of the Nelson River, and relate to pulp and paper mills, mining plants, civic hydro promotion and transportation projects.

During 1927 more than 6,000 Hungarians will emigrate to Canada, according to Albert de Hayden, Hungarian Consul-General of Canada, who is here on business in connection with the 6,000 countrymen who came to Canada last year. "My investigations have shown," he said, "that on the average the newly arrived Hungarians are doing fairly well despite the fact that this is a dull time in the year in farming and to a lesser extent in industrial plants."

"If they can pitch ball as well as they can snowball, they would be some singers," was the comment of one of the Calgary Scouts as he dug himself out of a concentrated volley of snowballs that the Westminster Scouts had placed on various parts of his body and face, when the Calgary boys tried to enflame the choristers in a snow battle staged near the C.P.R. station. It was the culmination of a program arranged for the Scout choristers during the visit to Calgary recently of the Westminster Boys' Choir.

During the month of January of the present year automobile production in Canada has increased 98 per cent over and above the production for the corresponding month of last year, being 15,376 cars, as compared with 7,752 for the previous year. Almost half of the cars produced were for export, according to the Dominion Bureau of Statistics.

In memory of the late Col. George H. Ham, of Montreal, dean of railway publicity men in North America, a beautiful memorial porch is being erected over the door of St. John's Church at Whithy by the members of the Women's Canadian Press Club. The late Col. Ham died in Montreal on April 16 last.

Nara, Japan.—Eleven passengers on the Round-the-World cruise of the Canadian Pacific flagship, Empress of Scotland, squeezed through a rectangular hole in a pillar just behind the colossal image of Buddha in the Daitoku Temple here yesterday, thereby achieving according to ancient tradition, the short road to Paradise.

The Board of Control at Toronto have formally accepted the offer made by Sir Leicester Harcourt, English Baronet, of Mounier's portrait of General John Graves Simcoe, after whom the County of Simcoe was named. General Simcoe set up his first government at York, now Toronto. The painting will be hung in the Toronto City Hall, already adorned with a collection of historical paintings recognized as one of the finest of its kind in America.

"Ave atque Vale" (Hail and Farewell), echoed through the austere precincts of the Canadian Pacific Railway offices Board Room in Montreal recently, when the Westminster Boys' Choir, in token of their appreciation and thanks for the care and the thought taken in their behalf during their 6,000-mile tour of Canada which they completed on March 16, when they sailed on the C.P. liner Minnedosa, sang a parting song in Latin for E. W. Beatty, chairman and president of the Company, in whose care they had made their memorable journey.

Their Excellencies the Governor-General and Lady Willingdon will be given a warm welcome on the occasion of their first visit officially to Western Canada, the many centres through which they will pass are already preparing to receive them. They will leave Ottawa, by special train, for Vancouver March 18 and Canadian Pacific train March 19 and are scheduled to arrive at Vancouver March 25. Leaving the latter city they will go on to Victoria the same afternoon and will spend a couple of weeks visiting points of interest on Vancouver Island, returning to Vancouver April 19.

Back from a short trip to England on Canadian Pacific of Telegraph business, John MacMillan, general manager of telegraphs of the railway, returned on C.P. steamship Montreal and has again taken up his duties. Mr. MacMillan stated that purchase of cables for the Pacific Coast in connection with the new overland cable wire for the second Australian cable was completed during his trip. This material which represents a length of a hundred miles in two sections of wire, was inspected under Mr. MacMillan's supervision and will be shipped to this country early in April.

CHAPTER XXXIV—Continued

Again Brandon smiled weakly, and indicated the bandages. "She is to blame for that. But I do not think she will give an alarm. That will save the man you left in the barn. The police will not be concerned much, when you have returned to them the plunder you collected. When you have sent them that, you will be as I said—paid double."

The expression on the face of the club house official who had heard the cryptic conversation began to show a gleam of understanding—a curious understanding of the holdup which had sent the group of half-literate men back to his loyalties. Antoine noted and shifted, uneasily. Brandon too, after despite his pain, saw. He called the word to the coach.

"Do not be concerned by the little drama in the next tonight," he said, between his labored breathings. "Your patrons who were robbed will receive their valuables. I have a reason to believe. They will be none the worse for their experience. They may not know of it, of course, but they played their parts tonight in a great adventure."

Meanwhile, Joanna, her wrap fastened again, her chin made gripped by the wheel of the gray car, fought her way along the narrow road. When she rounded a turn just above the village of La Turbie little pin-jetties or half-sisters up far down over the sea, the light-house at the base of Cap Martin showed like a far away eye of the night. The mist was lifting before the threat of dawn. Beyond La Turbie the country, although chaotic, was visible. The lamps along the sea boulevard were discernible.

The thought of Knollworth, still captive with the other men in the hidden barn of the house, bothered her for a moment. An hapless case to turn around and, with the road partially clear, now, feel her way back to the but she was certain she would recognize. She could not, indeed, pick up someone at La Turbie to help her awaken the countryside. She decided against this plan, however, settled back behind her wheel, and slid into high speed.

The grounds of Villa Anet were vaporized by the rising dampness of the dissipating mist. A solitary

If You Need a Tonic,
Get The Best!

For one brief instant the little before her muddled, and assumed a contorted shape. Then the smother in the fireplace burst into a flame of red and died again—something that flared as a grotesque mockery. Joanna's wrap fell from her shoulders. Her little hands dug into her breasts, but gave the senseless body no pain. The little figure

"I have never known love until now! All else has just been a chimera. It is you who have shown what love's glory is! Please my wonderful dear, will you take me in and comfort me?"

Joanna's voice, that was; John's passion and pleading and humility, in it. All those chances of adoration, submission, hope and prayer, and yearning that Joanna had never heard in it.

Now, Yvonne's low, silvery cadences, infinitely sweet, and—happily—sufficiently sincere.

"Are you content—will you be content—to accept from me the love that is the only kind that I may give you? The love that has blossomed and withered so many, many times? Will you accept of me as a pure love, my friend. And I may never promise its constancy. It is the crown that you may wear only while you can defend, and keep it. That is what I said of me, and my love, my dear,

light, near the entrance gate, gleamed dimly. As she guided the car along the winding road to the house among the vines, gray shapes of the arches and verandas and pavilions which, in another few hours, were to be a blazing, fantastic background for her brilliant and lavish fête—the fête of the Golden City, and also, her friend, for Brandon had said, "I am the one," and he had said, "Whatever you have is to be taken from you. There shall be no more money!"

When she drew up in front of a side entrance to the villa she saw that the house itself was also dark. She considered whether or not to summon a servant with her horn, and decided to leave the car in the driveway, and to go in quietly. She asked for the allowance of her room—the room which thronged the golden bed.

At the ponderous villa doors she was troubled by the thought that she had never found it necessary to carry any sort of key. Servants at ways awaited her return, but they had to be summoned by the bell. She tried the door, however, and found that she was unfastened. She closed it softly behind her and felt her way to a reception room to a draped arch that opened into a secluded drawing room. Across this room would be the grand hall from which a stairway led to the upper floors. When she was about to step into the heavy, double drapes which hung in the arched door that opened into the bigger room she stopped, and better, so I kept on until I had used the three boxes and now feel as well as ever I did when I was a young girl. Prior box, a box at all dealers, or mailed direct on receipt of price. The T. Millburn Co., Limited, Toronto, Ont.

The voices swelled as the curtains parted. One of them she recognized as Yvonne's; the other, John's. And at the far end of the room she saw them, before the gentle glow in the fireplace, the only illumination of light shone. She heard a murmur of voices. Convinced that it would be servants, awaiting her perhaps, she pushed the curtains aside and stepped into the room. Then she stood, fascinated.

and I must not say to you that what is said is untrue. If we love, you and I, and if I give to you the portion I may spare you, you must be content. It can never be a body love—there must always be something wanting in it. It must be the kind we take and put aside. Will that then, satisfy you?"

He crept closer to her. She put her hands about his face, warm, meekly hands. Her rich, soft, round lips—like that were a sign of all love-madness since the world began—went down to his. Then it was John's voice again:

"There can be no other love so wonderful as you can give. In any way that I may have it, it is pure or defiled, I want it!"

A scream, a torrent of tears, a frenzy of them, surged to Joanna's lips—and halted there. It was Yvonne who rose, slowly, silently, gracefully, Joanna saw, as if it were some strange, fantastic symbol taking form at the rim of a distant fountain, a smile, a faintly loud, queer, and fitting smile, at Yvonne's feet, sense-dazed and unrevelling. Again that low, soft, silvery cadence of Yvonne:

"What a poor, damnable thing you say, my friend! Do preach, my dear Preach to Joanna. Preach to the heart and the soul and the wonder of her! Preach—but do it on your knees and take your text from the lesson I've taken the trouble to give you. Tell her that you've learned, at last, that you're only make-believe—you and all your kind. Tell her that if she'll have you, you'll try to learn from her the sort of thing her kind can teach."

John's voice, then, but Joanna didn't hear. She stumbled blindly back through the curtains.

(To Be Continued.)

Became So Weak
Could Hardly Stand

Mrs. Wm. Palmer, Tombahawk, Alta., writes: "Last spring I had a long spell of sickness and became so weak I could hardly stand. I could not sleep at night as the least little noise would wake me up. I tried both Dr. Williams' Pink Pills, but they did me no good, and I was getting worse. I wrote my mother about my condition, and she sent me three boxes of

After the first box I was feeling much better, so I kept on until I had used the three boxes and now feel as well as ever I did when I was a young girl. Prior box, a box at all dealers, or mailed direct on receipt of price. The T. Millburn Co., Limited, Toronto, Ont.

World's Laziest Creature

Fresh Water Tortoise in London Zoo Takes Life Easy

The modern urge to "be on the go" has finally struck the Mammals in a terrapin, in the London zoo, which is known there as the world's laziest creature, resulting in its walking the entire length of its tank and at rather a fast pace, too. This fresh water tortoise, or turtle, had reduced the science of living to a minimum of ceaseless rest. For months it lay in one corner of the tank with scarcely a visible movement. Occasionally it gulped a fish which came within its range. Small water plants covered the animal's shell and it made no effort to escape them. It baby alligators played about disturbing its slats.

Suddenly it went on its walk—upsetting the equality of all its tank-mates—but apparently it has settled down again to another long rest.

Cliff Dweller's Burial Grounds

The lost burial grounds of the Casa Grande (Ariz.) cliff dwellers, probably a thousand years old, have been found by an expedition from the Southwest Museum, Los Angeles, California. A funeral urn of beautifully slanted red on buff coloring and containing bones fragments and other remains of the dead was the first finding of the expedition. It revealed that two forms of burial—cremation and earth interment—were used by the cliff dwellers.

Basle, Switzerland, has issued special postcards to commemorate this year's exhibition of Swiss industries.

A successful man is one who makes his mistakes when they don't count against him.

A will, consisting of 25 words, was written on the back of a bridge score pad by a New York woman.

For all pain—Minnard's Liniment.

Sell Airplanes on Installment Plan

London Dealers Keep "Bampas" for Customer's Selection

Enterprising aeroplane dealers have entered the installment plan field alongside the furniture houses and real estate agents.

In London under the new order of aircraft, two-seater machines, fully equipped, may now be bought for £220 down (roughly \$1,150) and twenty-four monthly instalments of £24 15s.

The installment plan ship has an electric horse-powered engine of the latest type and can do 100 miles an hour.

A prospective purchaser may inspect "bampas" in the downtown shops, pay down his cash, go to St. James Lane aerodrome, in the Edgware Road, on the outskirts of London, and fly away in his new craft with all the pride of the shopper who gets what he wants when he wants it.

MAKE CARE OF
BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not try to soothe soothing mixtures to correct the trouble, for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is to soothe and regulate the stomach and bowels. For this purpose, Dr. Williams' Baby's Own Tablets. They are easy to take and guaranteed to be entirely free from opiates and barbiturates. Confining them, Mrs. J. S. Toulmin, of London, writes: "I would like to tell you that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and they prompt me never fails to restore my little ones to health. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

A Use for Everything

Australia Makes Millions Out of Jack Rabbit Pelt

Australia now upon a time frantically wondered what it would do with the jack rabbit pelt. These ferocious creatures ate up all the crops in sight. A government bounty was put on them. Then it was found that rabbit hides were good for material to build felt hats. Last year the pelts of 78,000,000 jack rabbits brought \$125,000,000 into Australia. Twelve sheepskins and one seal skin can be made into a coat. Some day we expect some genius will discover a use for moth holes.

Miller's Worm Powders do not need the afterthought of castor oil or any purgative to complete their thoroughness, because they are strong enough in themselves. One dose of them, and they will be good for the stomach and bowels, and not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

Alberta Sugar Beet Industry

The Canadian Sugar Factory Co., Ltd., of Raymond, Alberta, intends growing beets on half an acre of land in the vicinity of Red Deer this summer for test purposes. If successful, a month it is likely to be set up in that vicinity.

Bees Can't Talk, but they often get

back at one with a stinging retort.

RESTORED TO
GOOD HEALTH

Mother of Eleven Children
Praises Lydia E. Pinkham's
Vegetable Compound

Her Interesting Experience

Buckingham, Quebec,—"I am the mother of eleven living children, and my baby is five months old. I am only 35 years old and I have taken Lydia E. Pinkham's Vegetable Compound for weakness and my nerves. I know of it from my father, and my mother, and my husband. I have taken it for many years, and it has done me a great deal of good. I have been in misery and was always ready to cry. Now I am so happy to have good health. My daughter, who is 18 years old, has also taken it and will be happy to recommend it to all young girls."—Dane Williams, Esq., Box 414, Buckingham, Quebec.

Why suffer for years with weakness, nervousness and other ailments common to women from early life to old age, when Lydia E. Pinkham's Vegetable Compound will give you relief?

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 250,000 replies were received, and 80 out of every 100 reported they were benefited by its use.

Untold Wealth in Dead Sea

Is Fabulously Rich in Mineral Salts

The Dead Sea, so salty that fish and seaweed cannot live in it, has prospects of coming to aggressive life in a chemical production centre. Scientists who investigated for the Hebrew University have completed a report for Dr. Chaim Weizmann, its president, who is now in the United States, showing this historic salt lake to be a treasure trove in mineral salts as it is in biblical lore.

The chemists recommend that in connection with the harnessing of the Jordan River for power, now under way, steps may be taken to utilize the treasures of this inland sea. Ways and means to carry out the recommendations are under consideration.

The Dead Sea, 753 feet below the level of the Mediterranean, contains 25 per cent. solid element in comparison with 4.6 per cent. in ocean water. It is so heavy that animal bodies will not sink in it. The report says it contains 1 million tons of potash, 2,900; magnesium bromide, 550; sodium chloride, 22,000; ordinary salt, 11,000, and calcium 2,600.

The chemists estimate there is enough bromine to last the entire world 35,000 years at the present rate of consumption, and enough potash for 1,000 years. They also believe that production near the ancient site of Sodom would be cheaper than anywhere else in the world because of the intense heat, which causes rapid evaporation. The Jordan River pours 6,000,000 tons of water daily into the sea, but its level never rises.

Legend incorrectly has it that the sea poisons the air so that plants cannot even grow near its birds fly over it.

Little Helps For This Week

Add to godliness brotherly kindness. —2 Peter 1.

Brother man, fold to thy heart thy brother.

Where pity dwells the peace of God is there.

To worship rightly is to love each other.

Each smile a hymn, each kindly word a prayer.

—John Greenleaf Whittier

As the new come from the sun and yet are not the sun, even so our love and pity, though they are not God, but merely a poor, weak image and reflection of Him, yet from Him alone they come. If there is mercy in our hearts, it comes from the Fountain of Mercy, if there is the light of love in us, it is a ray from the full sun of love.

—Charles Kingsley.

Farmers Enjoy Low Freight Rates

Speaking recently in the Senate, Hon. C. P. Beaubien said that farmers in Western Canada enjoy the lowest freight rates in the world. In Canada it costs 12 cents per bushel to move grain 794 miles, while in the United States it costs 22 cents per bushel to move grain 708 miles. The average rate per bushel on all grain in Canada, he stated, was about 15 cents, whereas in the United States it was 30 cents and still higher in the Argentine.

Alberta's Dairy Industry

Increase in North Alberta's dairy industry has caused the Edmonton City Dairy to plan additions to its plant this summer, at a cost of \$250,000.

Oil For All Men.—The sailor, the soldier, the farmer, the hunter, the outdoor laborer and all who are exposed to the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve cold, reduce wounds, subdue lumbago and overcome rheumatism, it is excellent. It should be in the medicine chest of all men and women and be amongst those taken on a journey.

The honest man who pays his rent has to be honest and the dishonest one who doesn't has to keep moving.

One of the things a man can't understand is why his enemies seem to have so many friends.

Keep Minnard's Liniment in the house.

Cuticura Preparations
for All the Family

For generations Cuticura Soap and Ointment have afforded the purest, sweetest and most satisfactory method of promoting and maintaining a healthy condition of skin and scalp. Tender skin men find the scaly-lathering Cuticura Shaving Stick a necessity. Cuticura Talcum is an ideal powder, cooling and refreshing.

Sample Soap Free by Mail. Address Canadian Branch, Cuticura Laboratories, 117, Bevilacqua Street, Montreal, P. Q.

Wins Short Story Contest

Winnipeg Writer Submits Story That Takes First Prize

Lillian Beynon Thomas, Winnipeg, is the winner of the first prize of \$500 in the \$1,000 Canadian short-story contest conducted by MacLean's magazine. Her story, "Five Cents for Luck," was unanimously chosen by the judges as the best of 326 manuscripts submitted. The second prize of \$250 goes to R. V. Grey, of North Battleford, Sask., author of "Alouette." Two prizes of \$125 are awarded to Mario De La Roche, of Toronto, for her story, "Good Friday," and to Leslie MacFarlane, Hallybury, Ontario, author of "The Root House."

Albert C. Trimble, of Dauphin, Man., received special mention for "The Ninth Ninth Pit" (Out of Nothing Nothing Comes).

The entries were anonymous.

The winner of the second prize, R. V. Grey had never written for publication prior to this contest.

"Whistling for an hour after meals," says a well-known whistler, "is the best possible aid to digestion."

Wit and Wisdom

Hunt for the good in the other fellow--he has to do the same in your case.

Even confirmed fools have their serious moments.

There's no saving grace like the grace of saving

Among the things that run in all families are silk stockings.

It's easy to throw bricks but it takes a certain amount of skill and labor to build with them.

What has become of the old fashioned woman who never complained?

Moths are economical--they eat nothing but holes.

Time, tide and a note at the bank wait for no man.

The confusion in China is mostly among the Confucians.

Another Coleman man has just had a scrap with his wife. A certain fellow says, "Nowadays, about the time a boy gets old enough that he doesn't want to tell his mother where and why he was out late, he gets married and has to tell his wife."

Local and General Briefs.

Mrs. E. S. Campbell, of Calgary, is the guest this week of her sister, Mrs. A. Brocklehurst, of Carbon Dale.

According to the Bassano Mail there is a possibility that the electric light rate to consumers may be slightly reduced this year. Bassano operates its own plant, and the present rate is 18c.

Although the weather in and around Coleman has not been of the most pleasant kind during the past week, we may be thankful that we are residing in the valley of the Old Man river instead of the Mississippi. Snow flurries and cold unseasonable conditions is at least preferable to flood waters that carry away buildings and cause loss of life.

Miss Jessie Fairbairn, who was the guest of Mrs. Fairfall for a few weeks, left on Saturday last for Calgary.

Little Miss Margaret McKinnon, 8th street, entertained a number of her young playmates at her home last Saturday, to help her celebrate her 4th birthday anniversary.

Mr. Sidney White and Mr. John McDonald, who have been attending the University at Edmonton, are at home for the summer vacation.

Solomon's Secret

Old Solomon rubbed his hands and bowed the customer out of his antique shop. He had just disposed of a number of Jacobean chairs at a very good figure.

When the door closed, a friend who had witnessed the deal poked Solly in the ribs and said:

"You unscrupulous old villain! How could you tell the man those chairs were genuine?"

"Hush, my boy," replied Solomon. "When Rachel presented me with a son I called him Jacob, and taught him to be the smartest antique faker in London. So every piece of furniture he makes is genuine Jacobean. Truth in business is the best policy, but you have got to look ahead and see that the truth isn't inconvenient."

A Big Order

An old colored man was arraigned before a justice on a charge of assault. During the proceedings the judge asked him if he wanted a lawyer appointed to defend him.

"No, no Judge," he said. "I don't wan' no lawyer, but I sartinly would like a couple of good witnesses if you got 'em."

St. Paul's United Church of Canada
